[A New Approach To Cost Of Production Benchmarking](#)

Beef Cattle Research Council - Oct 15, 2020

The Canadian Cow-Calf Cost of Production Network (CDN COP Network) will develop benchmarks for specific production systems and ecoregions across the country. Scenarios will be developed for what future farms could look like utilizing the 5% Rule to identify where incremental improvements could be made around productivity, input costs, and output prices. Each production system will have its own set of limitations and opportunities where greater focus may be beneficial.
