[Change to the AgriStability program a positive step for the beef industry](#)

Canadian Cattlemen's Association - Mar 29, 2021

The CCA has been steady in our advocacy to make changes to the AgriStability program. On March 25, following a Federal-Provincial-Territorial meeting, FPT Ministers agreed to the removal of the reference margin limit (RML) within AgriStability. Removing the RML will go a long way in making AgriStability more predictable and equitable for beef producers and better position the industry to contribute to Canada's economic recovery.

[Canada and the U.K. ratify its trade continuity agreement](#)

Canadian Cattlemen's Association - Mar 29, 2021

On March 19, Hon. Mary Ng, Minister of Small Business, Export Promotion and International Trade announced that Canada is ratifying the Canada-United Kingdom (U.K.) Trade Continuity Agreement (TCA). CCA recognizes the importance of avoiding trade interruptions and the need for a transitional agreement—however we are disappointed that the Canada-U.K. TCA is largely a replica of the Comprehensive and Economic Trade Agreement (CETA) with some gains being made in how Canada's quota into the U.K. is administered.

[Federal government climate announcements to benefit the environment and further beef sustainability](#)

Canadian Cattlemen's Association - Mar 29, 2021

The CCA welcomes recent federal government announcements that will position Canada's beef industry to work as a key partner to achieve shared environmental outcomes through both the Species At Risk Partnership on Agricultural Lands (SARPAL) initiative and the Agricultural Climate Solutions program.

[125,000-acre initiative aims to conserve Canadian prairies through collaboration with ranchers](#)

Canadian Cattlemen's Association - Mar 29, 2021

Beef farmers and ranchers play an important role in providing quality food, but few people know they also play an essential role in protecting Canada's land, water and wildlife. With the urgency of unprecedented environmental challenges, like climate change, Ducks Unlimited Canada (DUC) has teamed up with McDonald's Canada and Cargill to support rancher-led work through a \$5-million CAD Forage Program. The program will work to return 125,000 acres (50,585 hectares) of cropland to grass and pasture by 2025.

[Tips to select corn silage hybrids across Canada](#)

Beef Cattle Research Council - Mar 11, 2021

When grown and harvested properly, corn silage can be an excellent source of energy and fibre for beef cattle. Selecting a corn hybrid starts by determining your intended end use for the product.
