#### [Minister of Agriculture and Agri-Food meets with drought-impacted farmers and makes announcement](#)

Canadian Cattlemen's Association - Aug 3, 2021

On July 22, Minister of Agriculture and Agri-Food, Hon. Marie-Claude Bibeau visited Manitoba to see firsthand how the drought conditions were impacting producers. CCA worked with Manitoba Beef Producers to arrange a visit of a beef farm in the Interlake region. The Minister finished the day with an announcement of initial measures the Government of Canada is taking, understanding more needs to be done.

#### [CCA, Canadian Canola Growers Association and Grain Growers of Canada request temporary, immediate drought related actions on crop insurance](#)

CCA Action News - Jul 20, 2021

Severe drought conditions are creating significant concerns for beef, grain and oilseed producers in the prairie provinces and parts of B.C. and Ontario. Extreme temperatures and below average rainfall have deteriorated pasture, hay and crops, creating limited feed resources and have some beef p

#### [2021 Manitoba TESA winner: Triple V Ranch believes in being in tune with nature](#)

Canadian Cattlemen's Association - Aug 3, 2021

Southern Manitoba rancher Matt Van Steelandt says transitioning a conventional ranching operation over to regenerative agricultural practices isn't something you do overnight. But, he figures his family's commercial cow-calf operation is making progress toward a planned objective of optimizing beef production in harmony with the land's natural ability to grow forages.

#### [Parliamentarians tour beef farms and ranches across Canada](#)

Canadian Cattlemen's Association - Aug 3, 2021

As part of CCA's summer outreach, Parliamentarians were invited on tours of beef farms and ranches in or near their constituencies. These tours present a great opportunity for Ministers, MPs and Senators to have a tangible example of the great work of the beef industry that they can share with their colleagues in Ottawa. Tours covered aspects of environmental stewardship, animal health, processing capacity, and of course, the serious impacts of the drought.

### [Steps taken to mitigate disease emergencies](#) [f](#) [t](#) [in](#) [e](#)

CCA Action News - Jul 15, 2021

Diseases and pandemics can and do happen swiftly and with limited warning. Recent history has confirmed this, along with hard lessons on appropriate response, communication and organization. "The human pandemic we're going through has taught all of us about the severity, emergence and spread of dis
